

Nov 30, 2017

Dear friends and family,

Greetings in the name of the Lord!

It has been quite a year of transitions, accomplishments, new experiences, and many blessings. Ana and I have greatly enjoyed our first year of marriage!!!

The WBSLFINISHED!!!!

Working on the website and contacts....

I am greatly blessed and pleased to say, the West Bengal Sign Language dictionary project is within its final weeks of completion! Thank you to many of you for your help on the project, prayer into it, and financial support. This project could not have been done without you! The vocabulary is one of the first dictionary project posted online that is designed primarily for the Deaf, and is the only one that has pictures to link with three languages (WBSL, Bengali, and English). This project has span over 17 years from the first video-taping in 2000 until now.

Letters to Schools
for the Deaf...

Ana has been a great blessing in promoting this dictionary. She suggested searching Facebook.... I now have several hundred Deaf contacts with whom to promote the dictionary.

Please pray that the dictionary will empower Deaf with more language skills. This is a necessity as the vast majority of the Deaf (~75 – 89%) cannot read, or write or sign. Of course there is more to language than just vocabulary but it is a start. Therefore, how are they to come the saving knowledge of Jesus if they have no language to communicate with?

Bethany's corner

Bethany will be graduating from Bethel University this Friday!!! I am so proud of her! It will be a year since I last saw her! I can't wait.

Please be praying into our futures plans to be directed by the Lord.

We wish you all many blessing over your Christmas holiday and the year to come!

Thank You!!
